VOLUME 7, NUMBER 6

**SENIOR HAND SURGERY RESOURCE
STAFFER CO-AUTHORS NEW BOOK -
*DUPUYTREN'S DISEASE: A SCIENTIFIC REVIEW***

Hand Surgery Resource's own Dr. Lawrence C. Hurst has co-authored a new book on Dupuytren's Disease, entitled, *Dupuytren's Disease: A Scientific Review!*

The expert team of Drs. Lawrence C. Hurst, Marie A. Badalamente, and David E. Komatsu has a combined 90 years of experience treating and researching Dupuytren's disease. *Dupuytren's Disease: A Scientific Review* offers consolidated, up-to-date coverage of both the basic normal (nonpathologic) science and cutting-edge science of this progressive disorder.

Hurst, Badalamente, and Komatsu break down the complex topic of Dupuytren's contracture into its basic scientific components. Hand surgeons, plastic surgeons, and orthopaedic surgeons will find this unique, concise title to be especially helpful with their research interests. The book includes chapters on prevalence of Dupuytren's disease, normal genetics, and the genetic abnormalities associated with Dupuytren's disease, and collagen and collagen synthesis in healthy fascia and Dupuytren's disease. Scientists will get a unique understanding of the surgeons' approach to this troublesome disease.

- Provides numerous illustrations throughout
- Contains an in-depth bibliography and a useful, complete glossary of related terms
- Consolidates today's available information on Dupuytren's science into a single, convenient resource
