VOLUME 8, NUMBER 7

NEW HAND THERAPY SECTION: EXTENSOR TENDON REHAB ZONES I & II

Have you checked out the Hand Therapy Library recently? We have a new section for **Extensor Tendon Rehab Zones I & II**.

Extensor tendon injury frequently accompanies complex injury with adjacent tissue involvement, however, the intent will focus upon management of tendon discontinuity only, generally via sharp or blunt trauma.

Special Hand Therapy Guidelines

Extensor Tendon Therapy Guidelines (Zones I & II)

Flexor Tendon Therapy Guidelines

2024 NYSSH VIRTUAL HAND SURGERY REVIEW COURSE

Saturday, October 26, 2024 | 8:00AM - 1:00PM

We encourage orthopaedic residents to attend to prepare for the OITE exam.

Goals and Objectives:

This program is designed to give an overview of the main principles of diagnosis and treatment of common conditions affecting the hand and upper extremity. At the conclusion of this course, participants will be able to: Elicit a thorough history and perform a comprehensive physical examination; Interpret important diagnostic studies, including radiographic studies, electrodiagnostic and laboratory data to make a diagnosis; Be familiar with current and accepted treatments for the following conditions: flexor and extensor tendon injuries, nerve injuries, compressive neuropathies, vascular and pain disorders, and traumatic ligamentous and osseous lesions.

Who Should Attend:

This program is designed for orthopaedic residents, rheumatologists, plastic surgeons, hand surgeons, occupational therapists, physical therapists, and others involved in the care of patients undergoing hand surgery.

Topics include:

- Fractures of the Hand
- Scaphoid Fractures
- Distal Radius Fractures
- Wrist Instability
- Extensor Tendon Mechanism – Anatomy and Pathology
- Flexor Tendon Injuries
