HAND SURGERY SOURCE VERSION 2.0

Register NOW for something GOOD that is FREE. Join our educational web site from Hand Surgery Resource at www.handsurgeryresource.com .

After four years of preparation, the Hand Surgery Resource team launched Hand Surgery Source on Monday, August 5, 2019, and in January 2020 we launched Version 2.0! This new web site from Hand Surgery Resource, LLC presents the fundamental principles of hand surgery. It is available at www.handsurgeryresource.com.

This site is **FREE**. This web site provides high quality educational material worldwide for anyone with an internet connection. Anyone can get a username and password simply by providing their email address.

Hand Surgery Source Version 2.0 contains:

- 250 diagnostic guides
- 160 exams, tests and signs
- 25 diagnostic studies

- Many search options, including congenital disorders, tumors, anatomy area, anatomic systems and general keyword search
- 2,156 photos and drawings making visualizing the teaching points easy
- 123 videos supporting the text
- 3,897 references, including 3,209 direct links to PubMed

We hope you will sign on today and enjoying using this hand surgery educational site. Existing Hand Surgery Primer users can log into Hand Surgery Source with their Primer credentials. New users can register for FREE at www.handsurgeryresource.com.

We would really appreciate your comments and feedback, too! And please forward this email on to other surgeons, physicians, students, therapists, physician assistants, nurse practitioners, residents, fellows, nurses, and anyone who would benefit from this hand surgery related educational material.
