VOLUME 4, NUMBER 4

EARN 2 CME CREDITS THROUGH HAND SURGERY RESOURCE!

We have established a partnership with Stony Brook University that lets you study a hand surgery topic, take an exam, and earn 2 CME credits for \$30!

For example, study our Carpal Tunnel Syndrome diagnostic guide, then complete our Carpal Tunnel Syndrome self-assessment exam to evaluate your knowledge of Carpal Tunnel Syndrome. A grade of 70% correct is considered passing. The test can be taken multiple times.

MD, PA or NP users may decide whether to take the test or take the test and apply for CME credit. Hand Surgery Resource has collaborated with the Stony Brook Medicine CME Office which will provide a certificate attesting to the earned CME credit. Successful completion of the CME test provides 2 CME credits.

Log in with your [Hand Surgery Resource account](#) or [click here](#) to create a new account. Once logged in, you will automatically be taken to the Diagnoses page. Once there, click on Carpal Tunnel Syndrome.

The cost of the 2 credits is \$30 until June 1, when the fee rises to \$40.

CPT CODES NOW AVAILABLE!

The American Medical Association (AMA) and Hand Surgery Resource, LLC have entered into an agreement which allows Hand Surgery Resource to provide our users with 75 commonly used hand surgery related CPT Codes for educational purposes.

The table below illustrates the common names, CPT descriptions and CPT Code numbers associated with the Hand Surgery Resource's diagnostic guide for Carpal tunnel Syndrome.

Common Procedure Name	CPT Description	CPT Code Number
Carpal tunnel release	Neurolysis and/or Transposition; Median Nerve at Carpal Tunnel	64721
Endoscopic carpal tunnel release	Endoscopy, Wrist, Surgical, with Release of Transverse Carpal Ligament	29848
Opponensplasty	Opponensplasty; Superficialis Tendon Transfer Type, Each Tendon	26490

If the CPT Codes for the procedures associated with this Diagnostic Guide are ***not*** listed, then Hand Surgery Resource recommends using the quick link references below to identify the proper CPT Codes.
